THE FILM

- digitally restored version of 2006 (running time approximately 94 minutes)

- Screen, video beamer and playback device needed
- Languages: English version with English intertitles, German version with German intertitles and optional subtitles in english

THE INSTRUMENT

- The CineConcert will necessarily require a tuned grand piano. The instrument must be technically / mechanically in perfect condition to achieve the best result of film and music. An upright piano or a digital piano is not suitable for this purpose.
- The instrument should be placed so that the screen is visible from the instrument's position (see stageplan).
- The front part of the piano (around the keyboard) should be illuminated by a light spot.
- For major events (eg open air), amplification could be necessary.

- For the screening of NOSFERATU in the USA a license must be purchased in advance of the event from Kino Lorber. The exact cost of this will depend on several factors, e.g. the number of paying spectators.
